# **Agenda Item B**

# Memorandum

**To: Licensing Committee**

**Date: September 2, 2003**

**From: Patricia F. Harris  
Executive Officer  
Board of Pharmacy**

**Subject: Implementation of the Joint Legislative Sunset Review Bill – SB  
361(Pending)**

SB 361 (Figueroa) is the legislative vehicle for the Board of Pharmacy sunset extension and contains statutory recommendations approved by the Joint Legislative Sunset Review Committee. Anticipating that the Governor will sign the legislation, the following is an overview of what the board is doing to implement the NAPLEX and develop a California Multi-State Pharmacy Jurisprudence Examination (MPJE). In addition, it will be necessary for the board to modify its regulations on the examination process and the pharmacy technician program.

## **Implementation of NAPLEX and California's MPJE**

SB 361 will allow an applicant who has passed the NAPLEX and the California MPJE on or after January 1, 2004, to be licensed as a pharmacist. Specifically, the bill requires the board when developing the MPJE to include all of the following:

- examination items to demonstrate the candidate's proficiency in patient communication skills
- aspects of contemporary standards of practice for pharmacists in California including, but not limited to, the provision of pharmacist care and the application of clinical knowledge to typical pharmacy practice situations that are not evaluated by the NAPELX

The bill also requires the board to work with the Office of Examination Resources or with an equivalent organization to develop the state jurisprudence examination to ensure that applicants for licensure are evaluated on their knowledge of applicable state laws and regulations.

Tracy Ferrel, Ph.D., Chief of the Office of Examination Resources for the Department of Consumer Affairs has been guiding the Board of Pharmacy on the development of California's MPJE. The first step was to create a content outline for the MPJE. Working closely with Dr. Ferrell, Competency Committee Chair Roseanne Jankowski and Assistant Executive Officer Virginia Herold performed a very thorough comparison of

the content outlines for the current NAPLEX and the California pharmacist licensure examination. Based on this review, Dr. Ferrel developed a draft content outline for the MPJE. In August, the Competency Committee revised this draft and approved the final examination content outline for California's MPJE. The committee also determined the number of items per examination and the cognitive level of the questions, reviewed questions in the existing pool for appropriateness and began writing new questions. The goal is to have the question pool ready by December 1, 2003.

Dr. Ferrel will be at the Licensing Committee meeting to present an overview of this process and to answer questions. **(Attachment 1 - California MPJE Content Outline.)**

Operationally, staff have been working with the National Associations of Boards of Pharmacy (NABP) on the transition to NAPLEX and the MPJE. Licensing Program Manager Anne Sodergren will be trained this month on the NAPLEX systems. There will be some modifications to California's application process and forms. These changes are necessary to streamline the process and make it more efficient for the applicant, the board and the schools. **(Attachment 2 – Flow Chart on the Application Process and Draft Forms)**

An applicant for licensure in California must also apply concurrently to NABP to take NAPLEX or to have a NAPLEX score transferred to California, and to take the California MPJE. It will be the board's determination whether an applicant is eligible in California to take the NAPLEX and/or the California MPJE. The NAPLEX/MPJE Registration Bulletin can be obtained from NABP's website.

Current law (B&P Code sec. 4200.1) requires an applicant who fails to pass the pharmacist licensure examination after four attempts to complete a minimum of 16 semester units of pharmacy coursework before he/she can take the licensure examination for a fifth time. It appears that this law still applies; however clarification has been sought from the board's staff counsel Dana Winterrowd. Therefore, if an applicant has failed the pharmacist licensure examination 4 times, he/she would not be eligible in California to take the NAPLEX and the California MPJE after January 1, 2004. Even if the applicant took and passed NAPLEX in another state, he/she would not be eligible to take California's MPJE until the requirement of 4200.1 is met.

### **Proposed Regulation Amendments to Implement NAPLEX and California MPJE**

With the passage of SB 361, it will be necessary for the board to amend its regulations so that they are consistent with the new statutory provisions and the proposed modifications to the application process. The following is an overview of some of the proposed changes:

- 1719 – The primary change in this section is the requirement that an applicant for the examination must complete the required 1,500 hours prior to applying for the examination. This is proposed to streamline the application process
- 1720 – Changes are technical except that a foreign graduate applicant must take the pharmacist licensure examination within one year of application instead of the

5-year period allowed now.

- 1720.1 – Graduates of foreign pharmacy schools who apply to take the California pharmacist licensure examination must be certified by the Foreign Pharmacy Graduate Examination Committee. This certification will streamline the board's application process for foreign graduates. This certification will provide the board with the graduate's transcripts, which the current process doesn't. Also, the certification process entails passing the TSE consistent with the board's current regulatory requirement.
- 1721- These are technical changes. If an applicant engages in dishonest conduct during an examination is not allowed to take the next examination for two years, must surrender his/her intern card and cannot be issued a pharmacy technician permit.
- 1723.1 – Technical changes
- 1724 – NAPLEX and MPJE scores are communicated as pass/fail. This regulation change is consistent with the guidance provided by the Office of Examination Resources. The board currently establishes its passing score by a criterion-referenced method. The process for establishing the pass score for California's MPJE will not change from current practice.
- 1727 – Technical Changes
- 1728 - Sections (c) and (d) were moved to 1719.

**(Attachment 3 – Proposed Regulation Changes Regarding the Qualifications for the Pharmacist Licensure Examination)**

***Requested Action: To recommend that the Board of Pharmacy approve the proposed regulation changes and move them to hearing***

**Amendments to Implement the Program Modifications for Pharmacy Technicians**

SB 361 included statutory changes to the pharmacy technician program that were recommendations from the board's Pharmacy Manpower Task Force. These changes include the requirement that an applicant for registration as a pharmacy technician has obtained an associate's degree in pharmacy technology. This was changed from an associate arts degree in a field of study directly related to the duties performed by a pharmacy technician. Certification by the Pharmacy Technician Certification Board was added as a qualifier and the experience provision was eliminated. Also, the statute was clarified to allow a graduate from a pharmacy school recognized by the board to be eligible for registration instead of requiring that an applicant be eligible for the board's pharmacist licensure examination.

The regulation amendments are consistent with the provisions of SB 361 and include technical clean up of the language that has not been done since the original adoption in 1990. The changes are:

- 1749 – Moves the technician fees to the same schedule of all other board application and licensing fees. Technical only
- 1793 - Technical changes

- 1793.1 – Moves (g) to 1793.7 and eliminates (h) which is duplicative of existing law
- 1793.2 – Duplicative of existing statute
- 1793.3 – No change. Proposed changes are being considered by the Legislative/Regulatory Committee
- 1793.4 – Eliminates experience as a qualification consistent with SB 361 changes
- 1793.5 – Duplicative of existing statute
- 1793.6 – Amendment removes the specificity of the theoretical and practical aspects of the 240 hours of training
- 1793.7 – Removes the duplicative sections of statute and adds (g) from 1793.1

**(Attachment 4 – Proposed Regulation Changes Regarding the Pharmacy Technicians)**

***Requested Action: To recommend that the Board of Pharmacy approve the proposed regulation changes and move them to hearing***

## **Mandatory Reporter**

Under California law each person licensed by the Board of Pharmacy is a “mandated reporter” for child abuse or neglect purposes. Prior to commencing his or her employment, and as a prerequisite to that employment, all mandated reporters must sign a statement on a form provided to him or her by his or her employer to the effect that he or she has knowledge of the provisions of Section 11166 and will comply with those provisions.

California Penal Code section 11166 requires that all mandated reporters make a report to an agency specified in Penal Code section 11165.9 [generally law enforcement agencies] whenever the mandated reporter, in his or her professional capacity or within the scope of his or her employment, has knowledge of or observes a child whom the mandated reporter knows or reasonably suspects has been the victim of child abuse or neglect. The mandated reporter must make a report to the agency immediately or as soon as is practicably possible by telephone, and the mandated reporter must prepare and send a written report thereof within 36 hours of receiving the information concerning the incident.

Failure to comply with the requirements of Section 11166 is a misdemeanor, punishable by up to six months in a county jail, by a fine of one thousand dollars (\$1,000), or by both that imprisonment and fine.

For further details about these requirements, consult Penal Code sections 11164, and following.

# Memorandum

**To:        Licensing Committee**

**Date:   August 27, 2003**

**From:    Patricia F. Harris  
             Executive Officer  
             Board of Pharmacy**

**Subject:   Review of Intern Program and Requirements**

One of the Licensing Committee's strategic objectives has been to review the requirements for the Intern Program. Because of other priorities, this committee has not had the opportunity to perform such a review.

Therefore, the purpose of this agenda item is to begin this by soliciting comments on how the intern program should be updated and streamlined operationally. About 10 years ago, to assist the intern and preceptor in complying with the program requirements, the board developed its Intern/Preceptor Manual, which is available to on the board's website.

The Licensing Committee discussed this agenda item at its last meeting. No comments were received in advance of the meeting; however, it was recommended that the internship should include experience obtained under protocol with physicians as allowed by Business and Professions Code section 4052. As suggested at the last meeting, Licensing Committee Chair Clarence Hiura invited the Deans from the California schools of pharmacy to attend this meeting and requested that they bring recommended changes for discussion.

**Date:** August 27, 2003

**From:** Patricia F. Harris  
Executive Officer  
Board of Pharmacy

**Subject:** Proposed Modifications to Statutes for Site Licenses

## **Proposed Revisions to the Wholesaler Statutes**

These proposed changes to the wholesale statutes are primarily technical in nature. The intent is to make the law easier to read and understand. However, there are a couple of substantial changes. The first one is the deletion of current subdivision (b) of 4160. This elimination would require all nonresident wholesalers to be licensed in California. Under current law, if an out-of-state wholesaler distributes dangerous drugs through a California licensed wholesaler, the board does not require that the out-of-state wholesaler be licensed with the board. The second substantial change requires an exemptee-in-charge for all nonresident wholesalers. This requirement is consistent with requirements for in-state wholesalers. **(Attachment 1 – Proposed Language)**

***Recommended action: To recommend that the Board of Pharmacy approve the proposed statutory changes***

## **Purchase of Dangerous Drugs and Devices**

These proposed statutory changes are also being discussed at the Enforcement Committee meeting on September 17<sup>th</sup>. The addition of Business and Professions Code section 4168 is intended to address some public protection issues that the Enforcement Committee has been discussing regarding counterfeit drugs, the secondary sourcing of dangerous drugs by wholesalers and the failure to maintain appropriate records. The language provides for specific citation authority for each violation of this section and the ability for the board to collect unpaid fines from non-licensees through the Franchise Tax Board.

This proposed language was also brought to this committee because current law (Business and Professions Codes section 4163) prohibits a manufacturer or wholesaler from furnishing dangerous drugs or devices to an unauthorized person. Proposed 4168(a) would also prohibit the purchasing of dangerous drugs or devices from an unauthorized

person or entity.

***Recommended action: To recommend that the Board of Pharmacy approve the proposed statutory changes and/or communicate any concerns to the Enforcement Committee for its consideration***

#### **Issuance of Site License to a Residence/Issuance of Site License to a Specific Location**

The Licensing Committee is being asked consider the legislative proposal to add Business and Professions Code section 4107. This proposal would prohibit any board-licensed facility from being located in a personal residence. Currently this is not a prohibition and it is problematic in that some wholesale facilities are located in the owner's home. Subdivision (b) makes it clear that that board issues a site permit to one premise and it is a separate operation. **(Attachment 2 – Proposed Language)**

***Recommended action: To recommend that the Board of Pharmacy approve the proposed statutory changes***

#### **Exemptee Requirement for Manufacturers**

This proposal is moving the current requirement from the Business and Professions Code to the Health and Safety Code because Department of Health Services regulates manufacturers. **(Attachment 3 – Proposed Language)**

***Recommended action: To recommend that the Board of Pharmacy approve the proposed statutory changes***

**Board of Pharmacy  
Draft Revisions to Wholesaler Statutes**

Amend Section 4160 of the Business and Professions Code, to read:

4160. (a) No person shall act as a wholesaler of any dangerous drug or dangerous device unless he or she has obtained a license from the board.

(b) Upon approval by the board and the payment of the required fee, the board shall issue a license to the applicant.

~~(b) No selling or distribution outlet, located in this state, of any out-of-state manufacturer, that has not obtained a license from the board, that sells or distributes only the dangerous drugs or the dangerous devices of that manufacturer, shall sell or distribute any dangerous drug or dangerous device in this state without obtaining a wholesaler's license from the board.~~

(c) A separate license shall be required for each place of business owned or operated by a wholesaler. Each license shall be renewed annually and shall not be transferable.

The exemptee-in-charge shall be responsible for the wholesaler's compliance with state and federal laws governing wholesalers. Each wholesaler shall designate, and notify the board of, a new exemptee-in-charge within 30 days of the date that the prior exemptee-in-charge ceases to be exemptee-in-charge. The board may require any information as the board deems is reasonably necessary to carry out the purposes of the section. The license shall be renewed annually.~~

~~(c) The Legislature, by enacting this section, does not intend a license issued to any out-of-state manufacturer or wholesaler pursuant to this section to change or affect the tax liability imposed by Chapter 3 (commencing with Section 23501) of Part 11 of Division 2 of the Revenue and Taxation Code on any out-of-state manufacturer or wholesaler.~~

~~(d) The Legislature, by enacting this section, does not intend a license issued to any out-of-state manufacturer or wholesaler pursuant to this section to serve as any evidence that the out-of-state manufacturer or wholesaler is doing business within this state.~~

- (g) The nonresident wholesaler shall maintain, at all times, a valid unexpired license, permit, or registration to conduct the wholesaler in compliance with the laws of the state in which it is a resident. Applications for a nonresident wholesaler license shall include a license verification from the licensing authority in the applicant's state of residence.
- (h) The board shall not issue or renew a nonresident wholesaler license until the nonresident wholesaler designates an exemptee-in-charge and notifies the board in writing of the identity and license number of that exemptee.
- (i) The exemptee-in-charge shall be responsible for the nonresident wholesaler's compliance with state and federal laws governing wholesalers. Each nonresident wholesaler shall designate, and notify the board of, a new exemptee-in-charge within 30 days of the date that the prior exemptee-in-charge ceases to be exemptee-in-charge.

- ~~(b) Registration of persons under this section shall be made on a form furnished by the board. The board may require any information as the board deems reasonably necessary to carry out the purposes of this section, including, but not limited to, the name and address of the registrant and the name and address of the manufacturer whose dangerous drugs or dangerous devices he or she is selling or distributing.~~
- ~~(c) The board may deny, revoke, or suspend the person's registration for any violation of this chapter or for any violation of Part 5 (commencing with Section 109875) of Division 104 of the Health and Safety Code. The board may deny, revoke, or suspend the person's registration if the manufacturer, whose dangerous drugs or dangerous devices he or she is selling or distributing,~~

~~violates any provision of this chapter or any provision of Part 5 (commencing with Section 109875) of Division 104 of the Health and Safety Code. The registration shall be renewed annually.~~

~~(b) Any manufacturer who fails within a reasonable time, or refuses, to comply with subdivision (a), shall be subject to citation and a fine, an order of abatement, or both, pursuant to Section 125.9 and any regulations adopted by the board, in addition to any other remedy provided by law.~~

### **RE: Status Report: Sterile Compounding Licensing Process**

As of August 28, 2003, the Board of Pharmacy has received 174 applications for Sterile Compounding licenses. One hundred and twenty six (73%) of the applications have been issued a Sterile Compounding License. Approximately 48 of the applications (27%) are pending for deficiencies such as incomplete applications, poorly written policies and procedures, and, in the case of out-of-state applications, a lack of a non-resident pharmacy permit.

The following is a breakdown of the applications processed by month:

<u>Month:</u>	<u>Number of Application Processed:</u>
April	9
May	27
June	107
July	26
August	5
Total:	174

At the inception of the program, it was planned the expiration date of the Sterile Compounding License would coincide with the expiration date of the pharmacy license so the licensee would receive only one mailing advising them of the need to renew both licenses. However, during the

first six months of the Sterile Compounding licensing program, there were identified 68 pharmacies who were recently inspected, paid the initial application fee, and issued a Sterile Compounding license whose pharmacy license will expire on or before January 1, 2004. At the approval of the Executive Director, these pharmacies will be sent a letter advising them their Sterile Compounding license expiration date will be extended until their next pharmacy expiration date in 2004 at which time they will be subject to a renewal fee and re-inspection in accordance with Business and Professions Code Section 4127.1 subdivision (c). This will reduce the concerns from the licensees about repaying a fee within a short period and also result in better utilization of inspector resources by eliminating the need to re-inspect pharmacies within a 2-3 month time span.

Pharmacies whose applications are received after August 1<sup>st</sup> and where it is discovered during the initial inspection process that sterile injectable drugs were compounded and dispensed in the absence of a Sterile Compounding License will be in violation of Business and Professions Code Section 4127.1 subdivision (a).

Future Plans and Action:

1. Continue to monitor and trend the number of applications received versus those approved.
2. Send Sterile Compounding License expiration date extension letters to pharmacies whose pharmacy license expires on or before January 1, 2004.
3. Modify the sterile compounding checklist in the Board of Pharmacy website after the revised California Code of Regulation Section 1751 is finally approved for implementation.
4. Continue to send inspectors on sterile compounding inspections as applications are received.
5. Meet with inspectors to discuss the compliance of radio-pharmacies relative to California Code of Regulation Section 1751 prior to conducting renewal inspections.
6. Continue to assist licensees in the development of policies and procedures to meet compliance with California Code of Regulations Section 1751.
7. Conduct inspections in pharmacies identified as compounding and dispensing sterile injectable drugs who have not applied for a Sterile Compounding License.
